About Me

Recent graduate eager for opportunities and improve my technical skill. Excited and passionate in learning and contributing to an organization that helps lives.

Skills

Programming Languages: JavaScript (ES6+), Python, Ruby, Java

Technologies: React, Redux, Node.js, Express.js, Django, Ruby on Rails, SQL, NoSQL, HTML5, CSS

Other: Version Control, Linux, Microservices, Docker, Nginx

Projects

Twitter Clone | React/Node.js/Express.js/PostgreSQL | www.github.com/jsunga/Tweeper

- Implemented a basic social networking service that allows registered users to broadcast short posts (text only).
- Designed and developed RESTful APIs that serve basic social networking services and feed the client with data.
- Deployed and launched utilizing Amazon EC2 and NGINX.

Real Estate Listings | React/Node.js/Express.js/PostgreSQL | www.github.com/jsunga/Gatorbnb

- Designed a web application to help SFSU students find housing by connecting students to landlords offering a place to rent near SFSU.
- Developed dynamic user-friendly interfaces.
- Worked closely with back-end engineers to connect the UIs to the API.
- Created a test plan for manual QA testing.

Food & Workout Logger | React/Express.js/MongoDB/Redis/WebSocket | www.github.com/jsunga/DiaryHub

- Designed a web application to help people track and log their food intake and workout plans.
- Developed RESTful APIs to serve account and logging services.
- Dockerized and implemented a microservice architecture for the back-end using http-proxy JavaScript library.
- Implemented user interfaces for the main page and food/workout logger.

Education

San Francisco State University | May 2019

B.S. in Computer Science | GPA: 3.2

Job Experience

Courier | DoorDash | July 2016

- Transported and delivered items to customers/clients in a safe, timely manner.
- Reviewed orders before delivery to ensure customer satisfaction.
- Provided excellent customer service by communicating with customers/clients when necessary.

Supervisor | Taco Bell | Aug 2014 – Jun 2016

- Organized workflow and ensured that team members understood their duties or tasks.
- Monitored team member productivity and provided constructive feedback and coaching.
- Committed to customer satisfaction and resolved complaints/problems.
- Maintained and submitted records of product inventory.
- Hired and trained new employees.
